Profile

I call myself a "Born Creator". I currently work as an office manager and business advisor at Areneras del Ferro in the river mining extraction area. But my professional ambitions were always to be a Blockchain and Backend Software Developer to bring my ideas for solutions into immediate systems and applications.

Education

Developer Blockchain   Nov 2021 - Present
PLATZI Advanced Technological School (Remote), EEUU, Los Angeles, California

It is an excellent place in which not only do you have great teachers who are continually improving themselves every day, but also connect you immediately with great Startups and give you the opportunity to show what you are capable of and do not block your way according to your certifications by through lives in which you are face to face with people such as CEOs of mega-giant companies such as Binance, Torre, Santander Banc, Google, Azure, AWS. etc...

I have personally approved the Crypto and Blockchain course, knowledge in NFT Creation and Smart Contract.
Studying from Basic Engineering and Software Development, Introduction to Backend Development, English a1, a2, Object Oriented Programming with Java SE, Functional Programming with Java SE, Testing with Java SE, Basic Kotlin, HTML, Css, JavaScript. I currently apply the latter (Jun-2022), they will continue in my career as an English student b1, b2, c1. JS asynchrony, Engin V8, Data Structures. Fundamentals of Node.Js, MongoDV, Web Sockets, Backend NodeJs, API REST with Espress, NodeJs with Hapi and finally Introduction to SOLIDITY for Ethereum implementation.

Police Special Forces   Oct 2012 - Sep 2015
Police Special Instruction School, Montevideo
Republican Guard, Introduction to Cuirassiers, Puma, Riot Control and GEO.
Outstanding orientation applied in Patrolling of the Special Anti-riot Forces.
